

Allow Pop-ups on Google Chrome

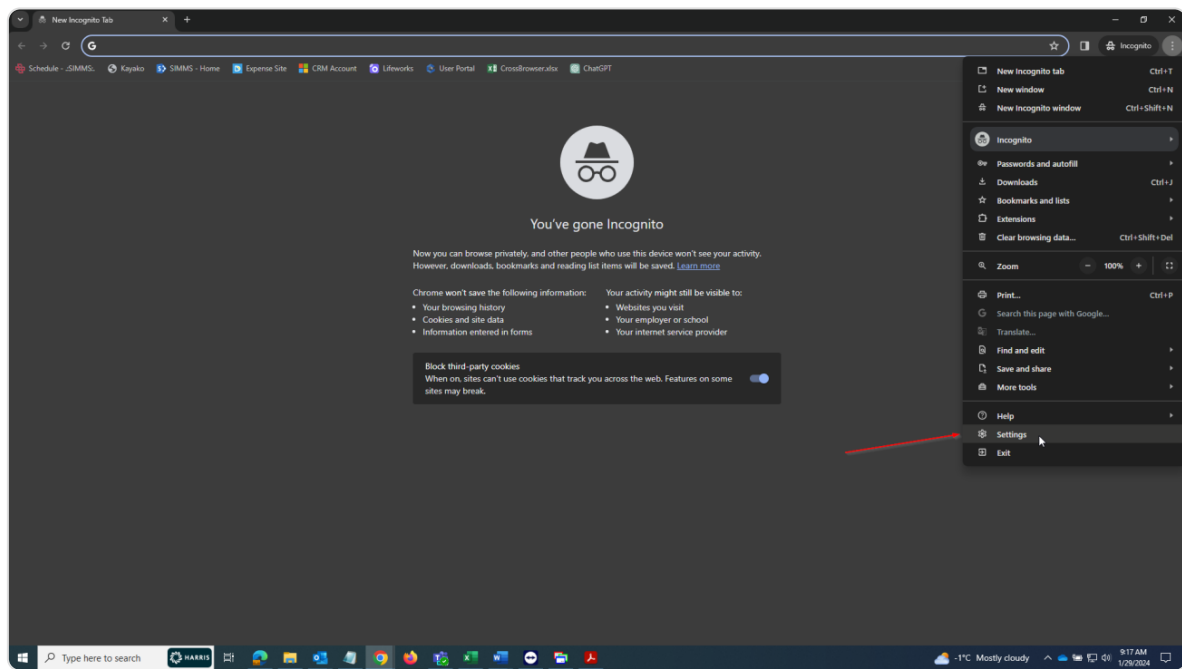

SIMMS requires pop-ups to be enabled in Chrome for certain features — such as uploads and the web browser install — to work correctly. Follow the steps below to turn them on.

1

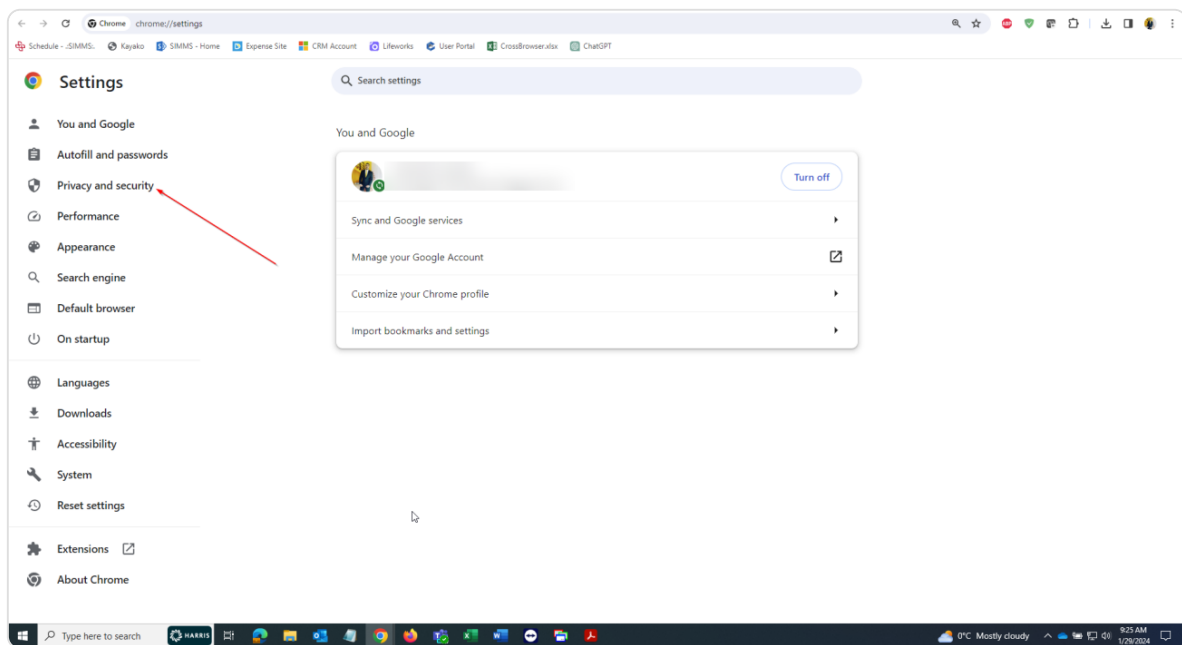

Click the icon with **three dots** in the top-right corner of the browser.

2

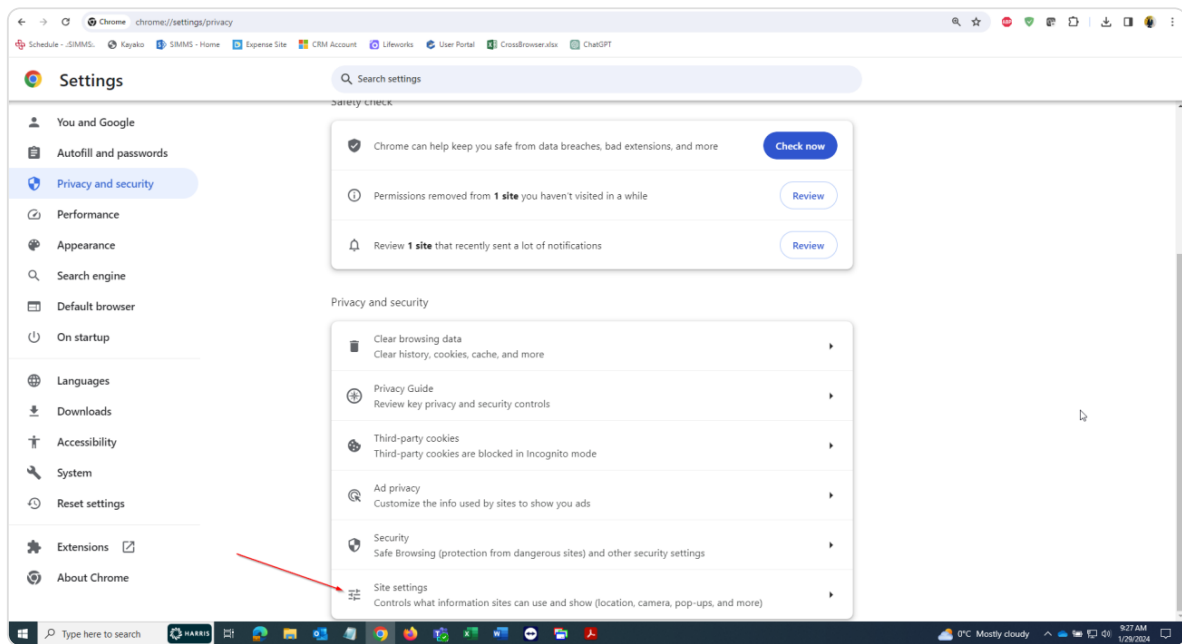

Click **Settings**.

3

Click **Privacy and security**.

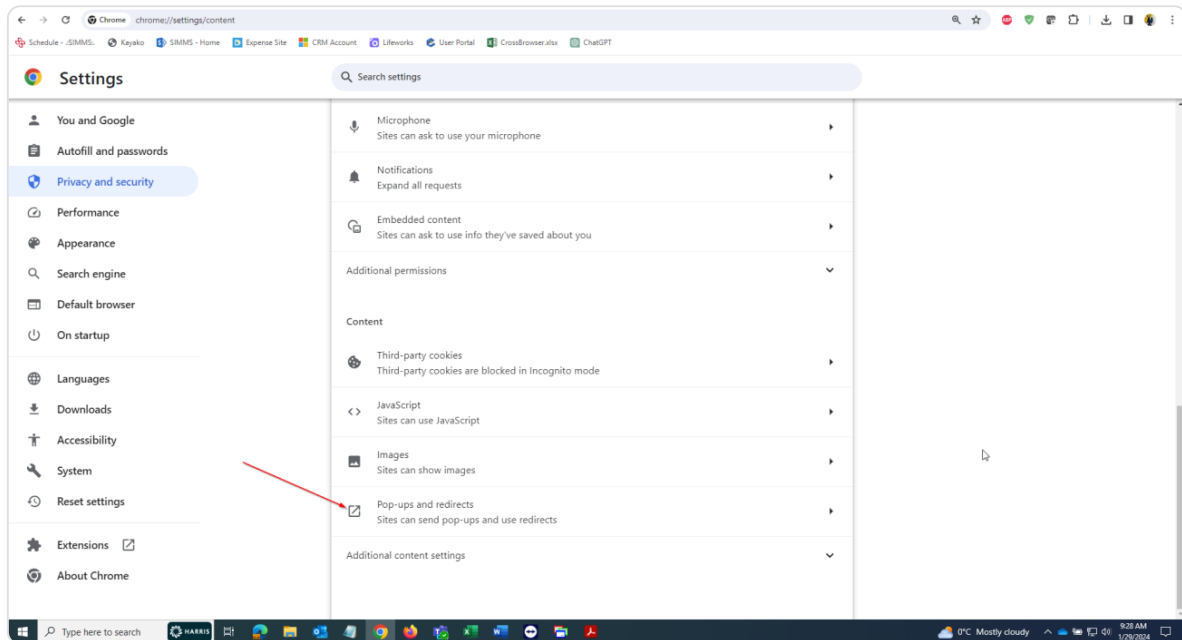

4

Scroll down and click **Site settings**.

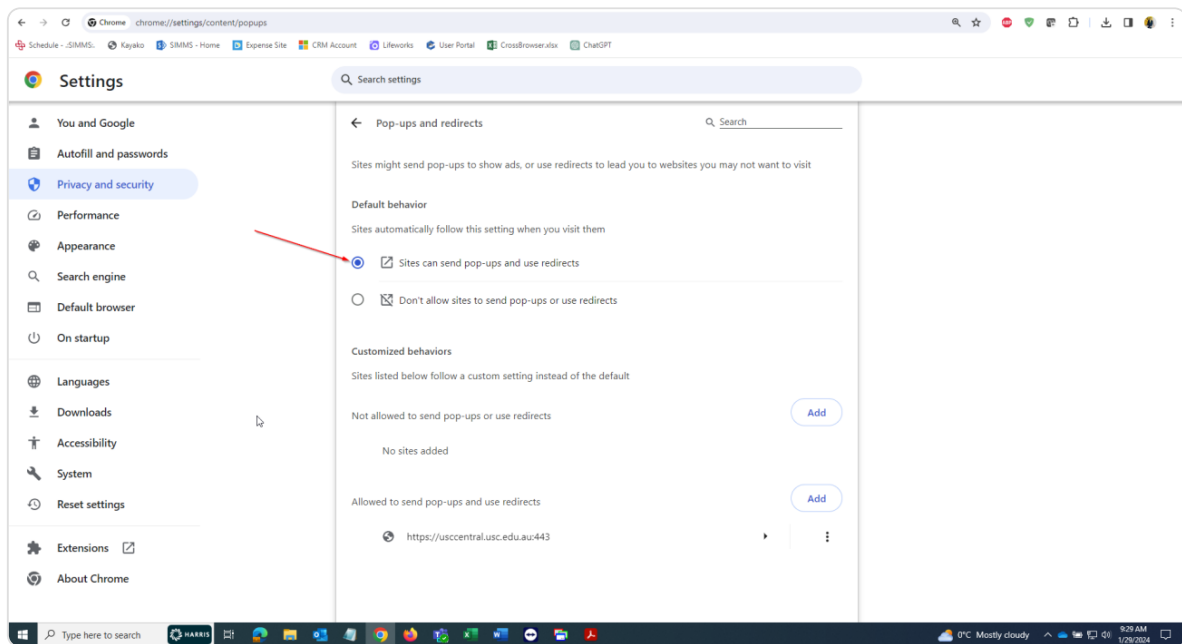

5

Scroll down and click **Pop-ups and redirects**.

6

Select "Sites can send pop-ups and use redirects."

NOTE Close this settings tab once you've made the change — pop-ups will now be allowed for SIMMS.
